SUMMARY

Computer Science student with knowledge of Python, SQL, DBMS, and Data Structures. Interested in problem-solving, data analytics, and building practical software solutions through projects and hands-on learning.

PROJECTS

Online Food Delivery Analytics Dashboard | Excel

Built an Excel dashboard using Pivot Tables and charts to analyze food delivery trends, customer ratings, and order patterns.

<https://github.com/snehithanetinti/Online-Food-Delivery-Dashboard>

Customer Churn Prediction | Python, Pandas, NumPy, Tableau

Performed data cleaning, exploratory data analysis, and KPI generation on a customer churn dataset.

Built an interactive Tableau dashboard to visualize churn trends and support data-driven business decisions.

TECHNICAL SKILLS

Languages: Python, Java, C
Databases: SQL, DBMS
Data Analytics: Excel, Pivot Tables
Core CS: Data Structures, OOP, OS
Tools: Git, GitHub
Learning: AWS Fundamentals, ETL Concepts

ACHIEVEMENTS & CERTIFICATIONS

Cloud Computing Fundamentals – IBM
Networking Basics – Cisco
Goethe-Zertifikat A1: Fit in Deutsch 1
– Goethe-Institut Indien
Python Essentials 1 – Cisco
Python Essentials 2 – Cisco

ACADEMIC HISTORY

B.Tech in Computer Science and Engineering(Core).
GITAM University , Visakhapatnam.
Current CGPA: 7.5/10
2023-2027.
Senior Secondary & Secondary Education (CBSE)
Kendriya Vidyalaya
2011 – 2023
X percentage : 88.7%
XII percentage : 70%

EXPERIENCE

AVERIXIS SOLUTIONS PRIVATE LIMITED
Data Science Intern | May 2026 – July 2026
Developed a Customer Churn Prediction project using Python and Tableau to analyze churn patterns and insights.

LANGUAGES

English ,Telugu ,Hindi.
